## **Insurance & Claims**

Led by: City Solicitor & General Counsel

### **Service Description**

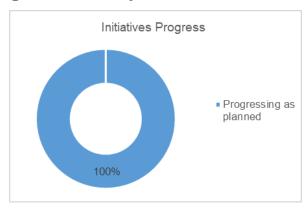

Insurance & Claims monitors the operational risks of The City and associated boards and authorities to determine cost-effective ways to eliminate, reduce, manage, transfer or insure such risks. We also manage the adjustment of claims either brought forward by the public or The Corporation in a fair and equitable manner.

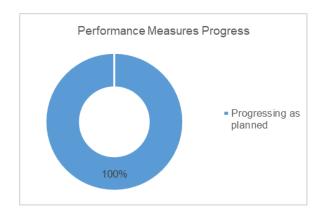

### **Service Updates**

### Key service results

- Successfully renewed the corporate insurance program, incorporating multiple enhancements to terms, conditions, deductibles, and sub-limits.
- Offered extensive support to business units and Calgarians in handling the rise in pothole claims this year.
- Continued to support major cross-corporate capital projects, including Event Centre and Green Line
- Provided substantial support in managing first party and third party claims related to the watermain break, and continue to work on recovery efforts.

## **Measuring Our Performance**

Legend

--- Actuals

Expected Future Performance

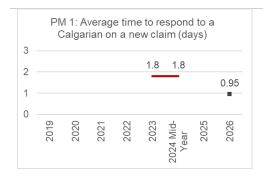

#### **Performance Measures**

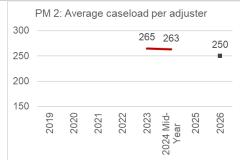

#### Story behind the numbers

**Status** 

Through automation and service improvement initiatives, the average time to respond to a Calgarian on a new claim is now 1.8 business days. At the end of this budget cycle (2026), the target is to achieve an average time of 1 business day and we are currently progressing as planned.

The decrease in the average number of files per adjuster is progressing as planned, and is trending towards 250 active files by the end of this budget cycle. The increase in reported pothole claims this year has not significantly affected progress on this measure.

## **Service Updates on Financial Performance**

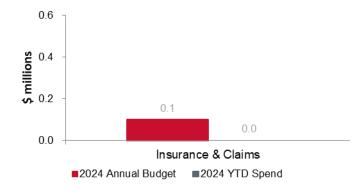

# Net Operating Budget and Actuals as of June 30, 2024

# Operating Budget Updates - 2024 YTD net operating budget vs actuals:

Insurance and Claims has an unfavourable operating variance of \$2.4 million. The main reason for the variance is higher than anticipated insurance claims paid to external parties at this time of the year. Given the unpredictable nature of claims, it is normal to observe such variances in a particular time period.

## Capital Budget and Spend as of June 30, 2024

# Capital Budget Updates - 2024 total capital budget vs 2024 YTD spend:

Insurance and Claims has spent 9.7 per cent of the 2024 approved capital budget. In 2024, the capital expenditures have been used to explore the feasibility of using a Microsoft Dynamics solution to replace the claims information database. The remaining capital is expected to be used before the end of 2024.
