Inflation Review

Patrick Walters, City Economist | Estella Scruggs, Corporate Research Analyst

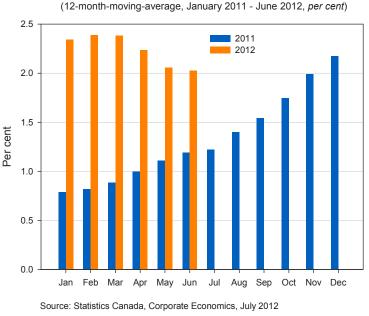

# Annual inflation for June 2012 was 2.0 per cent

Statistics Canada estimated that consumer prices rose, on average, by 1.3 per cent in Calgary, 1.3 per cent in Alberta and 1.5 per cent in Canada, for the month of June 2012 over June 2011. In this period on an annual (12-month-moving-average) basis, inflation was 2.0 per cent in Calgary, 2.2 per cent in Alberta and 2.4 per cent in Canada.

The inflation rate in Calgary was driven by prices increase in water, fuel and electricity (11.0 per cent), gasoline (7.7 per cent), transportation (3.6 per cent) and health and personal care (3.2 per cent). Lower prices for clothing and footwear (-1.3 per cent) and recreation, education and reading (-0.2 per cent) moderated the rate of price increase.

- Water, fuel and electricity accounts for a 5.7 per cent share of the household budget and therefore added 0.624 percentage points to the overall inflation rate.
- Transportation costs account for 21.1 per cent of the household budget and therefore added 0.761 percentage points to the overall inflation rate. The transportation cost increase was driven by increases in the price of gasoline (7.7 per cent).
- Finally, food prices rose by an average of 3.1 per cent and accounted for an average of 15 per cent of household expenditures and therefore added 0.474 percentage points to the overall inflation rate.

Next release: August 17, 2012

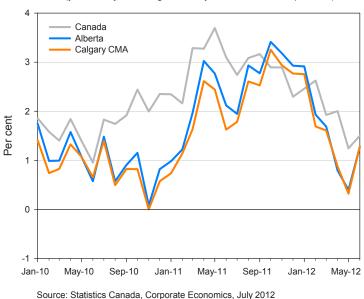

Calgary CMA inflation rate (all-items)

### Inflation Rates

(12-Month-Moving-Average or average inflation rate for the past 12 months)

	Relative Importance (%)*	Jun-12 (%)	May-12 (%)	Jun-11 (%)
Calgary: All-items	100.0	2.0	2.1	1.2
Calgary: All-items excluding food and energy	74.7	1.2	1.1	0.4

#### Who We Are

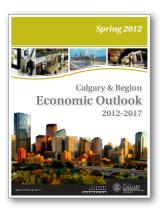

Corporate Economics provides services in four areas: forecasting, information provision, policy analysis and consulting. We also monitor the current economic trends which allows us to develop unique insights on how external events are impacting the local economy and the Municipal government. We are experienced at researching different economic topics and developed reliable methods of forecasting and analysis.
