

Your financial wellbeing.

Your TELUS Health EAP can help.

Financial wellbeing is now understood to be as important as physical and mental wellness. It's about more than having money in the bank. Financial wellbeing means feeling in control of your finances, being able to handle a financial setback, and being on track to achieve your financial and life goals (including having a plan for retirement).

Do you need financial help?

Almost everyone needs some sort of financial planning. Yet many people find it all too easy to put off planning for years, even up to retirement when they suddenly find there isn't enough money. You might know your financial goals, such as buying a new home or paying for your child's education, but you may not know how best to meet those goals.

Online financial assessment.

Our Financial Assessment, which takes only minutes to complete, will help you assess your financial wellbeing.

Take a couple of minutes to answer a brief series of general questions about budgeting and saving, debt and financial worry. The questions are designed to help you evaluate your financial picture.

Once you've completed the assessment, the tool generates helpful resources and recommendations tailored specifically for you, based on your responses to the set of questions.

Visit the TELUS Health One platform today to access these valuable resources.

Follow the online instructions to create your separate account to take advantage of all features.
