

# Elliston Park Electrical & Irrigation Upgrades

August 2025

## Overview

As part of the Parks and Playground Amenities (PAPA) Program and in partnership with Enmax, electrical upgrades are being planned for Elliston Park. In addition, a new irrigation system will be installed. Both projects are scheduled concurrently, with work beginning on September 2, 2025.

## Timeline

- The electrical upgrades are beginning September 2, 2025. This work is anticipated to be complete in two months, weather dependent, with minor installation and restoration planned in the spring.
- Irrigation work to begin in early September 2025, weather dependent.
  - Most of the work will take place in the fall of 2025, with landscaping and site remediation occurring in Spring 2026.

- No impacts to the designated off-leash area.
- Trucking, noise, and dust during the work.
- Vibrations due to compaction.
- Additional traffic and congestion.
- Regular work hours will be 7 a.m. to 7 p.m. Monday to Friday.

## Project Information or Questions

Please call 311 with additional questions or concerns.

## Construction Impacts

Crews will be primarily working in the northwest quadrant of the park.

Access to the Elliston Park Inclusive Playground will be maintained from the northwest parking lot.

- Traffic disruptions may include a temporary single lane closure eastbound along 17 Av SE, between 60 St. SE and 61 St. SE
- No pathway access at the corner of 60 St. SE and 17 Av SE, and 17 Av SE at 61 St SE. Pathway detour signs will be in place.
- Partial parking lot closure to accommodate construction staging. It's anticipated that a portion of the parking lot will remain open throughout the project.
