Executive Summary

The Calgary Police Service has been tracking the impact of the Covid-19 state of public health emergency on crime, disorder, and collision patterns in the city. Since the state of emergency was declared on March 15th 2020, general call and crime volumes have shown noteworthy reductions. Restrictions on gatherings, closures of public spaces and a large portion of the population being home-bound have increased guardianship in residential areas and reduced the opportunity for certain crimes, such as robberies, break and enters and thefts of and from vehicles, while increasing several non-contact crimes such as criminal harassment and threats. Although overall calls for service continue to track below expected levels, we are seeing increases in violent crime, citizen's reports of disorderly behaviours and non-criminal domestic conflict.

- There were twenty-one homicides during 2021, a 19% decrease from the five-year average, and thirteen fewer than in 2020. Four of the twenty-one homicides were domestic-motivated.
- There has been a notable increase in reports of Level 1 (common) sexual assaults, as well reports of sexual interference with a child. Reports of sexual offences against children increased by nearly one-quarter in 2021.
- Assaults increased to pre-pandemic levels, with common assaults and assaults with a weapon driving the increase. Assaults with a weapon, causing bodily harm and against peace officers were at six-year highs in 2021.
- There has been a noteworthy increase in the presence of weapons in violent crime through 2021. There was a 29% increase in firearms, as well as substantial increase in the presence of edged weapons, clubs, blunt objects, and other weapons.
- Non-physical violent crime such as extortion, criminal harassment, harassing communications and uttering threats have increased notably under the influence of the pandemic.
- Commercial robberies reached a six-year high; pharmacy, cannabis and cell phone stores were thematic targets.
- The number of victims of domestic violence remain stable with reporting in the previous year, as well as the average baseline. However, higher severity assaults jumped nearly one-quarter from average in 2021. Reports of domestic conflict also increased 11%.
- Property crime remained well below expected levels, down 16% from average. Property crimes have been most affected by the societal movement pattern changes and restrictions from mid-March 2020 forward. Deep reductions in break and enters, shoplifting, general thefts and vehicle-related thefts have had the greatest impact on crime volume reductions when comparisons are made to pre-pandemic numbers.
- Break and enters were 28% below average, with dwelling B&Es down 35% and commercial B&Es by 30% compared to the five-year average. Vehicle thefts remain well below the five-year average (down 22%).
- The number of young offenders identified in 2021 dropped 35%, with the reduction in property crime involvement driving the overall decrease. There has been a noteworthy increase in young offenders committing robbery.
- The total number of police service requests in 2021 was 5% lower than the five-year average. Citizen use of the online reporting system was embraced in 2021, growing by 50%. In 2021 police attended an average of 1,100 calls a day. Online citizen reports averaged 50 per day.
- Calls about disorderly behaviours rose by 5% in 2021. Calls about mental health concerns, unwanted guest, threats, and disturbances increased most notably. Disorder calls accounted for an average of 280 calls a day from the public.

REPORT NOTES

Most of the statistical data in this report is derived from the Calgary Police Service records management system (SENTRY). Disorder data is derived from the Computer aided Dispatch (CAD) system. Data is compiled by the Corporate Data and Analytics Team of the Bureau of Service & Community Support.

Reporting is based on the most serious offence in the incident. Please note that offences are assigned to the month in which the offence was *reported*, which is not necessarily the month the offence occurred. The reported date is the first point in time at which the police were notified of the offence and reporting lag may vary due to circumstances (these are typically property crimes where the victim did not report the offence until a later date, or was unaware of the loss until a later date, or late-reported sexual assaults). Also note that “attempted” offences are included in these totals. Violent crime, excluding robbery, is counted by the number of victims, using the most serious offence against the victim. Robbery, and all other crime, is counted by incident using the most serious offence in the incident. Of note, cases are often cleared months and sometimes years later. Consequently, clearance rates for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these clearance rate totals.

For a more detailed explanation of the offence counting methodology, please contact the Corporate Data and Analytics Team (Bureau of Service & Community Support).

Calgary Crime Statistics Overview

4TH QUARTER 2021

| | 4th Quarter | | | | Year to Date | | | | |

Source: Sentry, March 2022; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

¹ Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. ² Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³ Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident. ⁴ Missing persons are counted by the number of missing individuals.

¹Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ²The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five year period.

¹Includes Online Citizen Reports (OCR). OCR allow for reporting of low value property damage/theft (incl. shoplifting) and property lost/found. Not all OCR submitted are entered into the police records management system.

² Attended calls for service, excluding callbacks.

³ Calls for service included in the "Mental Health Related" sub-category in this section include calls specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. Calls in this sub-category are not limited to public-generated calls as on the Disorder section of this report, as a result the numbers will not align between report sections.

⁴Number of calls for service where weapons have been mentioned/observed by the caller but are not yet verified by police.

NOTE: Disorder reported here includes only publicly generated calls. Dispatched, advised and callback calls are included.

¹ Calls for service included in the "mental health concern" component of social disorder are only those calls from the public which are specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. This applies particularly to calls about suicide, missing persons or check on welfare, which are not included in this data as they are not considered social disorder. ² In June 2020 a change to event type coding resulted in the removal of Landlord/Tenant and Neighbour Dispute event subtypes. Calls to events involving these types of disputes are now coded according to the nature of the dispute rather than the relationship between the parties. Some may be represented in other event subtypes within Disorder such as Disturbance, Unwanted Guest, or Property Damage, while others may be coded as Keep the Peace or Assault and as a result would no longer be included in Disorder.

³ The majority of Property Damage calls result in *Criminal Code* reports, which are counted under 'Other Property Crimes'. ⁴ The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five-year period.

****NEW** Calgary Impaired Contraventions (Bill 21)**

Source: eCollision, June 2022

¹The fatal collision count represents the count of collisions. It excludes collisions resulting from medical events, suicides, workplace/industrial related collisions and train-related collisions (including C-Train).

²Outstanding eCollisions include collision reports pending download by Alberta Transportation to the Calgary Police server.

³Total reportable collisions exclude collisions occurring in parking lots or private property.

Additional information on residential speed limit changes implemented on May 31st 2021 can be found on the City of Calgary website:

Source: Sentry, March 2022; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

¹Violent crimes are counted at the victim level using the most serious violation against each victim in an incident.

²Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident.

⁴A change made to the way in which bail violations and failures to appear/attend violations in 2017 makes the numbers for these categories non-comparable across the five-year period.

⁵Missing persons are counted by the number of missing individuals.

⁶****NEW****Provincial Bill 21 introduced new sanctions for impaired driving offences under the *Provincial Administrative Penalties Act (PAPA)* on December 1st 2020. See page 14 for additional detail on provincial Immediate Roadside Sanctions (IRS) for impaired driving. The implementation of the new provincial legislation (*Provincial Administrative Penalties Act*) has resulted in a significant reduction in impaired offences under the *Criminal Code* as most first time impaired drivers will be subject to only an IRS:FAIL (the specific administrative penalty under the Traffic Safety Act for criminal level impaired driving offences), unless the incident results in death or serious bodily harm or other significant aggravating factors in which case criminal charges should also be pursued.

¹ Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. ² Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³ Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident.
