Executive Summary

- Total violent crime for the 2nd Quarter was 15% higher than the 5-year average.
- There were seven homicides during the 2nd Quarter of 2023, an exact match to the five-year average. Two of the seven homicides were domestic-motivated.
- Reported sexual offences were 9% above average in the 2nd Quarter. Approximately 70% of all reported sexual offences were in the Level 1 category.
- Robberies in the 2nd Quarter were almost 30% higher than the 5-year average. This was driven by the volume of person robberies, which was 48% higher than average, and 66% higher than the same time last year.
- Assaults increased by 14% during the 2nd Quarter compared to the 5-year average. Additionally, the 2nd Quarter of 2023 saw a 10% increase in the volume of assaults compared to the same quarter last year. While almost every category of assault increased, the largest change was a 34% increase of assault with a weapon/causing bodily harm.
- The presence of weapons in violent crime during the 2nd Quarter was almost 15% higher than the 5-year average (this figure excludes incidents with no weapons, which also went up). The increase was driven mainly by the use of verbal threats and other weapons (e.g. pepper spray or spitting).
- The number of victims of domestic violence declined 2% from the 5-year average during the 2nd Quarter. However, reports of non-criminal domestic conflict increased by almost 9% over average.
- Property crime volumes were 6% below the 5-year average in the 2nd Quarter of 2023, with notable declines across most Break & Enter types (overall -24%) as well as a 12% reduction of vehicle thefts.
- The overall number of young offenders identified was 25% above the five-year average during the 2nd Quarter with a 28% increase in violent crime (driven by a 34% increase in assaults), a 25% increase in property crime (spread across break and enter, theft and other property crime) and an 18% increase in other crimes.
- Youth victims of violent crimes also increased by 15% as compared to the 5-year average. This was driven by a 43% increase in robbery victims and 22% increase in assault victims.
- The total number of police service requests during the 2nd Quarter was 7% higher than the five-year average. Police attended an average of 1,054 calls a day. This is 2% lower than the 5-year average.
- Citizen use of the online reporting system remained 43% higher than the 5-year average, with roughly 61 reports per day.
- Disorder calls accounted for an average of 274 calls a day from the public during the 2nd Quarter of 2023. Compared to the 5-year average, this represents a 4% reduction in calls related to disorderly behaviours. The largest decreases were in suspicious person, suspicious vehicle, and noise complaint calls. Calls related to disturbances, unwanted guests and mental health concerns all increased.

REPORT NOTES

Most of the statistical data in this report is derived from the Calgary Police Service records management system (SENTRY). Disorder data is derived from the Computer aided Dispatch (CAD) system. Data is compiled by the Corporate Data and Analytics Team of the Bureau of Service & Community Support.

Reporting is based on the most serious offence in the incident. Please note that offences are assigned to the month in which the offence was *reported*, which is not necessarily the month the offence occurred. The reported date is the first point in time at which the police were notified of the offence and reporting lag may vary due to circumstances (these are typically property crimes where the victim did not report the offence until a later date, or was unaware of the loss until a later date, or late-reported sexual assaults). Also note that “attempted” offences are included in these totals. Violent crime, excluding robbery, is counted by the number of victims, using the most serious offence against the victim. Robbery, and all other crime, is counted by incident using the most serious offence in the incident. Of note, cases are often cleared months and sometimes years later. Consequently, clearance rates for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these clearance rate totals.

For a more detailed explanation of the offence counting methodology, please contact the Corporate Data and Analytics Team (Bureau of Service & Community Support).

Source: Sentry, August 2023; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

¹ Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. ² Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³ Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident. ⁴ Missing persons are counted by the number of missing individuals.

¹Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ²Robbery is counted at the incident level, rather than at the victim level in accordance with Uniform Crime Reporting counting standards. ³The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five year period.

¹Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ²The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five year period.

Source: CAD (Computer Aided Dispatch), July 2023

¹Includes Online Citizen Reports (OCR). OCR allow for reporting of low value property damage/theft (incl. shoplifting) and property lost/found. Not all OCR submitted are entered into the police records management system.

² Attended calls for service, excluding callbacks.

³ Calls for service included in the "Mental Health Related" sub-category in this section include calls specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. Calls in this sub-category are not limited to public-generated calls as on the Disorder section of this report, as a result the numbers will not align between report sections.

⁴Number of calls for service where weapons have been mentioned/observed by the caller but are not yet verified by police.

TOTAL DISORDER	23989	24943	25987	-4.0%	45046	44836	46866	-4.3%

NOTE: Disorder reported here includes only publicly generated calls. Dispatched, advised and callback calls are included.

Please note that there has been an update to the methodology for disorder going forward into 2023, involving the removal of threats and the filtering of online reports to only include mischief violations. Disorder counts will therefore not be directly comparable to previously published disorder reporting.

¹Mental Health Concern includes calls coded as a mental health concern or mental health warrant and does not reflect all calls relating to mental health.

²Landlord/Tenant and Neighbour Dispute call types expired in June 2020 but are still included within the five-year average for statistical comparisons. ³

Roughly half of Property Damage calls result in Criminal Code reports, which are counted mostly within 'Other Property Crimes'. ⁴The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five-year period.

Source: Sentry, August 2023; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

¹Violent crimes are counted at the victim level using the most serious violation against each victim in an incident.

²Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident.

^{4A} Due to delays in processing of these records figures are considered incomplete.

⁵Missing persons are counted by the number of missing individuals.

⁶****NEW**** Provincial Bill 21 introduced new sanctions for impaired driving offences under the Provincial Administrative Penalties Act (PAPA) on December 1st 2021. See page 14 for additional detail on provincial Immediate Roadside Sanctions (IRS) for impaired driving. The implementation of the new provincial legislation (Provincial Administrative Penalties Act) has resulted in a significant reduction in impaired offences under the Criminal Code as most first time impaired drivers will be subject to only an IRS:FAIL (the specific administrative penalty under the Traffic Safety Act for criminal level impaired driving offences), unless the incident results in death or serious bodily harm or other significant aggravating factors in which case criminal charges should also be pursued.
