

## Enmax Legacy Parks Program — Ralph Klein Regional Park

Environmental Education Centre

**Project:** This regional park is a 30 hectare island located in a 200 hectare constructed storm water wetland. The site contains a 2,000 square meter educational facility with 4 classrooms and flex space. The park is designed to demonstrate leading edge sustainability and best practices in a number of areas. On the site, Parks has partnered with Water Resources, local school boards and post secondary institutions around both program delivery and other opportunities.

**Budget:** \$40.5M Enmax Legacy Parks Program funding (land, design, development).

**Timeline:** 2010 – Building dedication.  
Opened for school programs and public in 2011.

**Benefits:** Winning regional and national awards for its sustainable building design, this site delivers education programs focusing on environmental literacy for all Calgarians.
