Introduction

Our Centre City is important to Calgary's economic resilience - when our downtown thrives, so does the rest of the city. To support in the development of a livable and thriving core, developers contribute to the costs of infrastructure required in the community through the payment of the Centre City Levy. Specifically, they pay for a portion of the utility costs under the Centre City Levy Bylaw 38M2009 and a portion of non-utility costs through the Centre City Charges adopted by Council resolution (see Report LPT2010-03).

The Municipal Government Act ¹ permits municipalities, through a bylaw, to charge off-site levies to developers. These levies are Council-approved and cover a portion of the cost of upgrades to local-sized water and sanitary sewer mains that are required to support growth. Developers also contribute, on a voluntary basis, to the funding of other infrastructure for community services that is necessary to accommodate growth. They are used to pay for all or part of the capital costs of the construction, upgrading and replacement of infrastructure. They are not used for maintenance or life-cycle costs.

In accordance with Council direction, Centre City Levy funds may be used towards projects that fall within the following scope:

- All or part of the capital costs of the construction, upgrading and replacement of water and sanitary sewer mains required for or impacted by a proposed subdivision or development in the Centre City Plan Area;
- Community or Recreation infrastructure (Transit, Fire, Police, Recreational Facilities, and Library facilities);
- Alternative transportation infrastructure (pedestrian overpasses and underpasses, bikeways, and sidewalks);
- Upgrading local parks, regional pathways, and regional parks; and
- The 13th Avenue Greenway.

The Centre City Levy is collected within the Centre City Plan Area, which is made up of the Downtown Plan area and the Beltline Area Redevelopment Plan area (Figure 1). The Centre City Levy is collected from all development projects in the Centre City Plan Area on a linear frontage basis, calculated using the length of the parcel's frontage on the avenues.

¹ Municipal Government Act, RSA 2000, c M-26, as amended.

- Community District Boundaries
- Neighbourhoods within the Beltline Community

The Centre City Levy program was adopted by Council in 2007 (Centre City Levies for Redevelopment, Report LPT2007-02, and Centre City Levies Update, Report LPT2007-18). Through report LPT2007-18, Council directed that Administration provide an annual report to Council on the status of the Centre City Levy funds, including the City's corresponding commitment to infrastructure upgrades. The City of Calgary's Annual Centre City Levy Report provides details on the Centre City Levies that were collected and spent, in accordance with Council direction. This report is prepared in accordance with Section 4(35.3) of the City of Calgary Charter. The 2018 levy balance will continue to be used to fund projects within the Centre City Levy area in accordance with Council direction and Bylaw 38M2009.

Administration is continuing to work collaboratively with members of the development industry to examine The City's approach to the Centre City Levy program, off-site levies and community services charges.

The City would like to thank the following departments, business units, sections and Civic Partners for their contributions: Finance, Water Resources, Law, Transportation, Calgary Fire Department, Recreation, Calgary Transit, Calgary Public Library, Calgary Police Service, Public Infrastructure, and Communications.

Throughout this report, the Centre City Levy program will be referred to as either a levy or levies.

Overview

The Centre City Levies are one of the tools used to help fund the infrastructure required to build great communities. Since levies are collected as land development proceeds, it can take The City many years to build up enough resources to support a capital infrastructure project. To help move ahead with projects in a timely manner to support the development, infrastructure identified in the Centre City Levy Bylaw may be funded using a combination of levy funds and other funding sources, such as capital grants. This often results in a positive balance in the levy accounts at the end of the year. For 2018, the balance is \$7,799,087 in 2018. This balance will be spent to support new and ongoing infrastructure projects in future years. Any reconciliation related to the use of other funding sources will occur as part of the next levy bylaw review, scheduled for completion by 2021 January 1. For more detail on the Centre City Levies collected and spent, the rest of the report includes summary pages and appendices with project specific details.

Table 1 below identifies the current Centre City Levy rates. Each infrastructure category has a different amount collected. These rates have not increased since 2010, when Council removed the automatic annual increase from the Centre City Levy Bylaw.

Table 1: Current Centre City Levy Rates, by Infrastructure Category

Department	Infrastructure Category	Levy Rates, by Year		
		2007 Frontage Levy/Metre	2008 & 2009 Frontage Levy/Metre	2010 to 2018 Frontage Levy/Metre
Utilities ¹	Water	\$912	1,037	1,092
	Sanitary Sewer	\$912	1,037	1,092
	Total Levy for Utilities	\$1,823	2,073	2,184
Transit ²	Buses	\$272	278	279
Fire ²	Station and Land	\$75	85	90
Police ²	Station and Land	\$50	57	60
Recreation ²	Facility and Land	\$400	455	478
Library ²	My Branch Portion	\$333	379	399
	Total Levy for Community Services	\$1,130	1,254	1,306
Transportation ²	Pedestrian Overpasses	\$500	569	600
	Bikeways/Sidewalks	\$35	40	42
	Total Levy for Transportation	\$535	609	642
Parks ²	Local Park Upgrading	\$39	44	47
	Regional Park & Pathway Upgrading	\$183	208	219
	Total Levy for Parks	\$222	252	266
Roads (Greenways) ²	13 Avenue Greenway	\$260	296	312
	Total Levy for Roads (Greenways)	\$260	296	312
	Total (\$/metre)	\$3,970	\$4,484	\$4,710

¹ Funds for Utilities are collected in accordance with Bylaw 38M2009. Rates have been rounded to the nearest dollar.

² Funds for Community Services, Transportation, Parks, and Greenways are collected through Council resolution in report LPT2007-18. These rates were last adjusted by Council in 2010 through report LPT2010-03.

In 2018, \$1,898,906 of Centre City Levy funds were used to invest in multiple infrastructure programs. Table 2 below identifies that the total Centre City Levy balance at the end of 2018 is \$7,799,087.

Table 2: Centre City Levies Balance Collected and Spent

Opening Balance, Centre City Levies @ 2018 January 01	7,797,170
Total Levies Collected	1,724,323
Interest Earned	176,500
Levies Spent	(1,898,906)
Closing Balance, Centre City Levies @ 2018 December 31	\$7,799,087

Figure 2 shows the total Community Services and Utility Centre City Levy collections since 2014. As the graph indicates, levy collections tend to lag slightly behind the market, with collections in 2015 reflecting the peak of the development cycle in 2014, and a decline in collections since that point following the softening market from 2015 onwards.

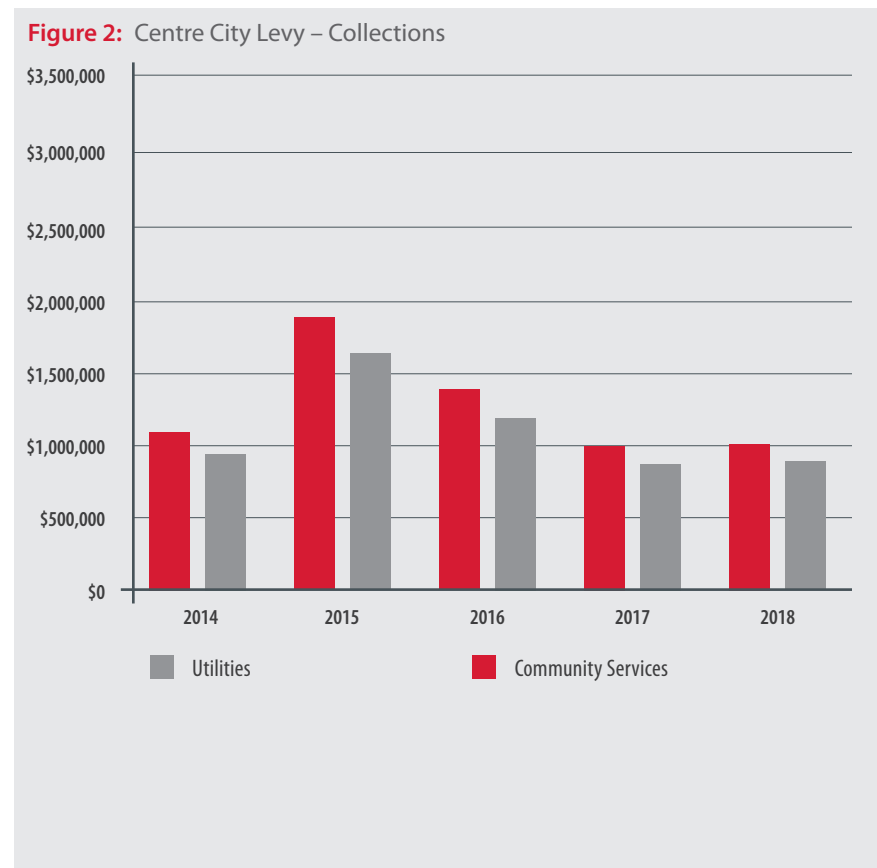

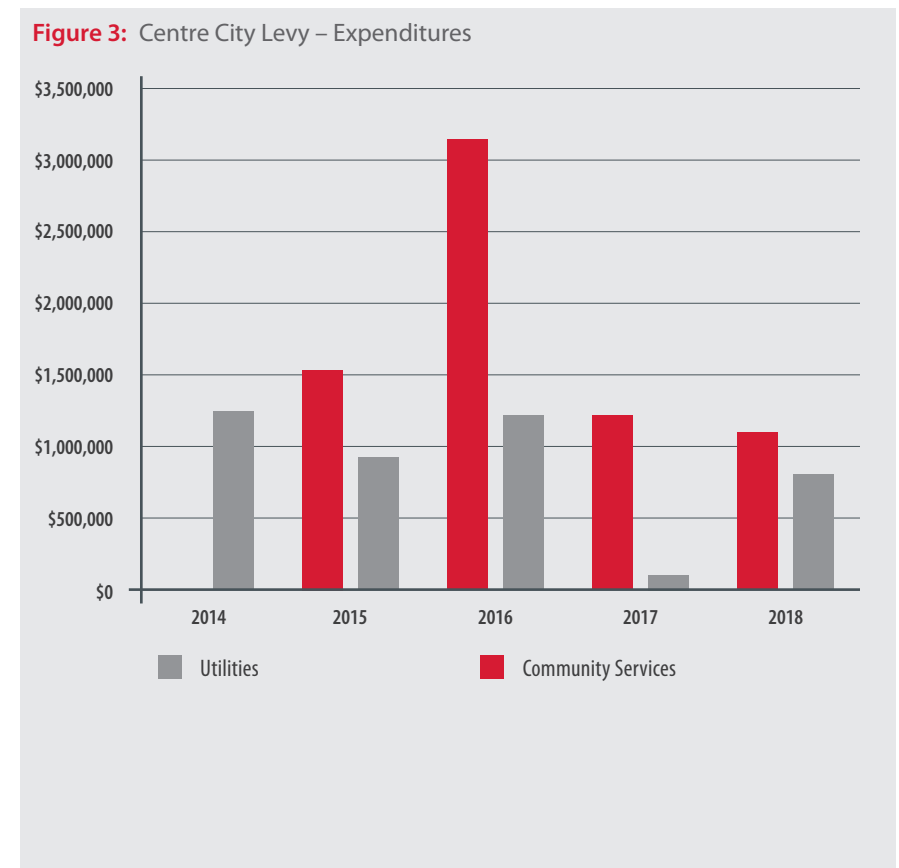

Figure 3 shows the annual expenditures from the Centre City Levy balances for Community Services and Utilities. In 2016, \$1.5 million of Centre City Levy funds were utilized for part of the new Central Library, which resulted in a spike in 2016 expenditures. In 2018, Transportation and Parks utilized Centre City Levy funding for:

- Public realm improvements on 17 Avenue SW.
- Streetscape improvements on the 1 ST SW Corridor, including the underpass.
- Improvements to the 4 Street SW underpass.
- Public realm improvements in West Eau Claire Park.

A detailed breakdown of the Centre City Levies collected, investment income, expenditures and department closing balances is included in Table 3.
