### Growing Spaces Projects & Grants Program

## List of Eligible Communities

The Growing Spaces Projects & Grants Program is two-year pilot program that is a part of the [Established Area Growth and Change Strategy \(EAGCS\)](#). The EAGCS uses a data-based approach to identify Focus Areas where communities are experiencing higher degrees of growth and change, including a rise in redevelopment projects and changing population. These Focus Areas are updated on a two-year cycle to stay aligned with market trends.

Using Local Area Plan boundaries as reference, the following were identified as Focus Areas that are experiencing higher growth and change:

- East Calgary International Avenue Communities;
- North Hill Communities;
- South Shaganappi Communities;
- West Elbow Communities (primarily the northwest half); and
- Westbrook Communities (primarily the southeast half).

Below is a list of the Local Area Plans that make up the Focus Areas, the communities within them, and the Community Associations and/or Business Improvement Areas within communities that are eligible to submit project ideas over the next two years. All communities listed are eligible to submit project ideas, however projects must be in higher growth areas and/or must benefit more than one community.
