

Bridgeland Main Street: 2026 Summer Construction Notice

The Bridgeland Main Street project, part of The City's larger Main Streets program (calgary.ca/MainStreets) is continuing this summer along 1 Avenue N.E.

We have completed key streetscape improvements on the south side of 1 Avenue N.E. (between 4 Street and 6 Street N.E.) and are now transitioning construction to the north side.

1 Avenue N.E. (4 to 6A Street N.E.) – North Side

Streetscape and Infrastructure Improvements

Starting the week of June 15:

- **Scope of work:**
 - Widening sidewalks and upgrading street lighting to improve pedestrian safety,
 - Upgrading street lighting
 - Installing new street furniture
 - Adding new trees and landscaping
- To complete this work, crews will remove existing sidewalks and complete excavation to install underground infrastructure, including storm, lighting, and landscaping systems.
- **Duration:** Construction is expected to start the week of June 15. Construction is expected to take approximately eight (8) weeks in total.

Temporary Parking Changes

- To complete this work, some parking will remain restricted along 1 Avenue N.E. until this phase of work is complete.
- The parking along side streets, and the permit-parking temporarily converted into short-term public parking, will remain available during construction.
- We will be adding a temporary parking lot adjacent to Bridgeland-Riverside school starting July 1, 2026, to help with parking needs.
- These changes are intended to support short-term parking needs for customers, visitors, and nearby businesses while work is underway.

What to expect

Construction work may occur Monday to Saturday anytime between 7 a.m. and 7 p.m., with occasional work on weekends and overnight as required.

We know that construction impacts can be disruptive, and we will work to mitigate impacts as best as we can. Please be sure to follow all posted construction and detour signage in the area for your safety and that of construction crews. While we will make every effort to minimize impacts, Calgarians living, visiting, or travelling through the area can expect:

- Traffic detours and lane closures
- Pathway and sidewalk closures
- Temporary parking changes
- Temporary business access detours
- Increased noise, dust, and construction vehicles in the area
- Businesses remain open and access will be maintained throughout construction

Construction work is variable, and timelines are subject to change depending on factors such as complexity, weather, and supply chain. Businesses remain open, and pedestrian access will be maintained in the area.

More Information

For more information on the Bridgeland Main Street project, or to sign up for our electronic newsletter, please visit calgary.ca/BridgelandMainStreet. If you have any questions, please email the project team at bridgelandmainstreet@calgary.ca.
