2022 Community Association Service Measures

Community Associations (CAs) are dedicated to their communities and contribute to vibrant, healthy, and complete communities. The Service Measures data is a compilation of the benefits CAs bring to the communities they serve. The Service Measure tool assists Recreation, Sport & Community Partnerships in capturing, reporting on, and sharing the great work of CAs. This information helps to demonstrate the community benefits of investing in CAs by providing City-owned land and/or liaison support.

Information gathered from the Service Measures has been shared back with CAs for their own documentation and tracking; use in their annual report back to the community; and their use in grant applications.
