

Memo

August 19, 2024

To: Calgary Residents

From: Ryan Kidd
Acting Director, Water Services

RE: Declaration of Mandatory Stage 4 Outdoor Water Restrictions

Pursuant to section 20(1) of the Water Utility Bylaw 40M2006, I hereby declare a Stage 4 Outdoor Water Use Restriction in effect commencing August 26, 2024 at 12:01am MDT for the entire City of Calgary.

There are four stages of mandatory outdoor water restrictions, based on the severity of the water shortage. I am declaring a Stage 4 Outdoor Water Use Restriction as there are significant repairs required to the Bearspaw South Feedermain, which is a critical part of the water transmission infrastructure in Calgary.

These restrictions are enforceable by the Water Utility Bylaw 40M2006. Stage 4 Outdoor Water Use Restrictions are listed in Schedule "E" to the Water Utility Bylaw. This declaration has been advertised in accordance with section 20(4)(b) by City press release and notice on the City's website.

A number of outdoor water use restrictions are in effect and listed in Schedule "E". In particular, the watering of lawns, gardens, trees and shrubs is not permitted at any time under a Stage 4 Outdoor Water Use Restriction.

Regards,

A handwritten signature in black ink, appearing to read "Ryan Kidd".
