

Waste move-out checklist

Moving out can generate more waste than usual. Help keep our complex clean and correctly dispose of unwanted items that you won't be bringing with you to your new home.

Ask local stores or check online marketplaces for leftover boxes for packing.

Consider wrapping breakable items in clothing or linens to prevent packaging waste at your new home.

Any food that can not be given away or taken to your new home must be separated from its container before disposing in the food scraps bin.

Products with a hazardous symbol such as paint, household chemicals, auto fluids, etc. do NOT belong in our bins. Take to a designated City household hazardous waste drop-off location, visit calgary.ca/hhw

The closest location to our building is at _____

Do NOT put old computers, televisions and other electronics in our bins. Consider donating certain electronic items to a local charity or take to a City recycling drop-off location, visit calgary.ca/electronics

Do NOT leave large, bulky materials (mattress, barbecue, chairs, etc.) beside our bins. Consider donating useable items to charity stores, post online for sale or free giveaway or take to a City landfill (fees will apply), visit calgary.ca/landfill

Donate usable clothing, shoes or fabrics. Or recycle at the free Throw 'n' Go areas at the City landfill.

Thank you for doing your part to support our building's waste diversion program.

Find recycling, composting and safe disposal answers for hundreds of items at calgary.ca/whatgoeswhere
